WOODCRAFT UK

*[www.woodcraftuk.co.uk](http://www.woodcraftuk.co.uk)*

# Welcome to Woodcraft UK

*Creators of the finest in bespoke garden and street furniture.*

Historic and picturesque, the East Yorkshire town of Beverley is a fitting location for Woodcraft UK; a company that uses traditional skills and materials to create products of timeless beauty. Launched as a modest enterprise in 1990, Woodcraft UK rapidly gained recognition for its superior standards of quality and craftsmanship, and today it is one of the UK's leading suppliers of hand-built outdoor furniture.

Woodcraft UK specialises in commissions from local authorities and architectural clients, and has completed numerous projects in the commercial and leisure sectors.

In keeping with ecological concerns Woodcraft UK obtains timber products only from countries that have forestry plans based upon sustainable managed resources, utilising no endangered species. In addition, the enduring nature of Woodcraft UK's creations carries

with it a significant conservation benefit for it reduces the quantity of timber that would otherwise be expended in replacing less robust products. The company's full environmental policy can be found on its website, or can be supplied by post on request.

**For more information see:  
"The Woodcraft Guarantee"  
on page 34 or visit the website:  
[www.woodcraftuk.co.uk](http://www.woodcraftuk.co.uk)**

# *Success built on skill & service*

Woodcraft UK's success has been built not only on traditional craftsmanship but also on the traditional values of friendly, personal service and a firm commitment to customer satisfaction. This approach has proved so popular that today Woodcraft delivers its creations to customers throughout the UK, and each month welcomes to its workshop visitors keen to see how the company's craftsmen apply their skills and experience to transform inspired designs into sturdy yet elegant reality.

In addition to producing an extensive range of standard products, Woodcraft UK is able to design and supply products to suit any scale or setting, and the company's design team is always pleased to provide expert advice and guidance to customers.

Whether you are commissioning a major installation or making a one-off purchase, selecting from Woodcraft UK's standard range or having a bespoke item produced to your own specifications, you have the reassurance of knowing that you are getting the best - both for yourself and for the environment.

# *Handcrafted bespoke outdoor furniture*

*Garden and street furniture made to order.*

Woodcraft UK manufactures high quality and luxury wooden garden furniture for homes, patios, gardens, parks and agricultural areas, fulfilling the requirements of such establishments as Councils, churches, sporting organisations and recreational and commercial companies.

Woodcraft UK's bespoke outdoor furniture is made from a wide variety of quality materials ranging from hardwoods such as Iroko and English Oak to softwoods such as Larch and Douglas Fir . Each item is carefully

crafted by a team of highly-skilled machinists and craftsmen joiners. The team's expertise in the crafting of timber is matched only by its versatility – a quality that enables it to satisfy the most challenging of requests with distinctive bespoke creations as diverse as curved seating, litter bins and even tasteful memorial plaques. The Company's bespoke service enables its customers to tailor the product to their taste and situation and add a unique and truly individual element to their outdoor setting.

# *Benches & Chairs*

*Handcrafted from solid hardwood, durable and made to last.*

**'Rest, and be thankful'** the old Yorkshire adage directs, and Woodcraft UK offers you the perfect opportunity to heed this traditional invitation, with an extensive range of benches and chairs designed for rest and relaxation.

Woodcraft UK's benches and chairs are expertly crafted and constructed from carefully selected materials. Each is a long-term investment; a masterpiece of constructional durability and aesthetic integrity that will maintain its value despite the passage of time and the rigours of the elements. In the two decades since its inception Woodcraft UK has withstood all pressures to compromise and has steadfastly maintained the highest standards of quality in terms of design, materials and craftsmanship.

It takes very special creations to enhance Nature itself, but Woodcraft UK's superb collection of benches and chairs feature classic designs that can bring an additional element of beauty to any landscape.

*Clockwise from top left: The York Chair and Armchair, The York Bench with centre leg, The Scarborough Bench, The Beverley Chair.*

# *The York*

*Solid, durable, classic style.*

## **The York bench**

As impressive and enduring as the historic city from which it takes its name, the York bench is constructed from solid sections of timber, with traditional mortise & tenon joints used throughout. Available with flat or contoured arms, and with alternative shaped top rails, the York comes in standard lengths of 4ft (1.20m.), 5ft (1.50m.), 6ft (1.80m.) and 8ft (2.40m.) – this latter version featuring a centre leg for maximum solidity and stability.

## **The York chair**

As comfortable as it is attractive, the York chair is a smart and sturdy addition to any garden – domestic or public. All models are available with alternative shaped top rails if preferred, and with a choice of flat or contoured arms. Standard seat length 24in (610mm).

and fixing solutions on page 33.

# *The Beverley*

*Traditional, durable, beautifully hand built.*

## **The Beverley bench**

(shown above with square arms).

Introduced in 1989 the Beverley was Woodcraft UK's first bench design, and its popularity provided a clear indication of the company's future success.

The Beverley range combines comfort and style while still possessing sufficient solidity to withstand the rigours of regular use – a characteristic that makes it the perfect choice of seating for public parks as well as domestic gardens. The Beverley is available with the options of straight top and front rails or shaped rails, and – at no extra cost – a choice of square or flat arms.

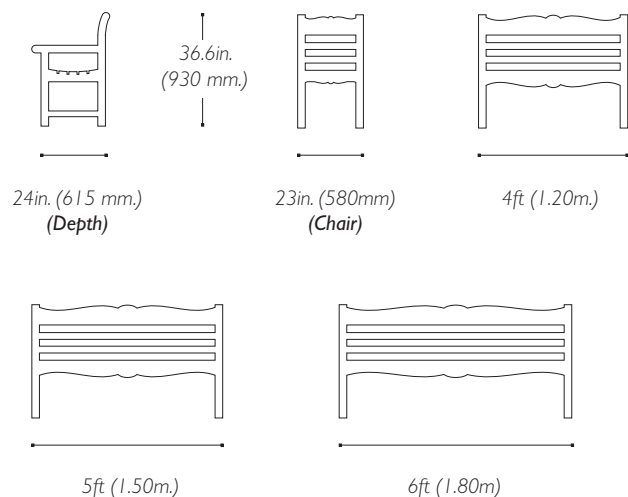

Standard seat lengths: 4ft (1.20m.), 5ft (1.50m.), 6ft (1.80m).

## The Beverley chair and armchair

Style and sturdiness are equally important considerations for garden furniture, and Woodcraft UK's Beverley chair blends these two elements perfectly. Inspired design and a slightly lighter construction give the Beverley an air of elegance, while strength is ensured through the application of the skilled craftsman's techniques. The Beverley can be supplied either as a chair or as an armchair version with square or flat arms, and high seat and lower seat versions are also available for those requiring an additional degree of comfort and convenience.

Standard seat length: 23in. (580mm)

## Sizing options

See Modifications on page 32 for options on top rails and arms and fixing solutions on page 33.

# *The Waveform*

*Modern, contemporary and comfortable.*

## **The Waveform bench**

The lazy swell of a tranquil ocean... This was the soothing image that prompted the creation of Woodcraft UK's Waveform range.

Designed and developed in-house, The Waveform is exclusive to Woodcraft UK, and its distinctive and relaxing nautical influence has made it a firm favourite, even with customers located far inland.

The Waveform seat is available with standard legs for direct standing, or with extra long legs to allow for concreting into position.

Standard seat lengths: 6ft (1.80m), 7ft 2inches (2.20m).

## The Waveform chair

A life on the ocean wave may not be to everyone's taste, but Waveform's distinctly nautical design has proved to have a widespread appeal. An enduring appeal too, one could say, for hidden bolts hold the Waveform's seat firmly in place, giving an unobtrusive sturdiness to the craftsman-built construction.

Comfortable, practical and durable, the Waveform chair is a classic creation and an eye-catching enhancement to any garden.

## Sizing options

7ft (2.20m.)

See the matching Waveform table on page 22.

## The Spinnaker

The unique design of the Spinnaker ensures that it lives up to a name inspired by that sturdiness so vital to any sailing vessel, and by combining galvanised and stainless steels with durable hardwood Woodcraft UK has created a seat that will remain solid, serviceable and attractive despite the elements. The plate steel ends are hot-dip galvanised and painted or powder-coated in a colour of your choice. All brightwork is stainless steel and solid timber seat lats are in a durable hardwood. A four-point fixing system is used and concrete anchor bolts are supplied. An alternative method of securing to grass or soft ground can be offered.

### The Spinnaker Bench

## The Lastingham

The Lastingham bench has long proved popular as a robust wayside seat. Made with reinforced concrete ends and solid hardwood frames, secured with weatherproof bolts, it is easily assembled in just a few minutes. The concrete feet are extended to allow secure fixing below ground.

### The Lastingham Bench

# *The Knaresborough*

*Stylish and elegant.*

## **The Knaresborough bench**

Attractive yet sturdy, and distinguished by its elaborate and ornate design, the Knaresborough bench impressively demonstrates the skills and talents of Woodcraft UK's experienced team, and serves as a perfect example of the craftsmanship and quality upon which the Company has built its reputation. Outstanding for its elegance and practicality, the Knaresborough makes an excellent enhancement to any garden. Standard seat length 5ft (1.50cm).

# The Staxton

A simple yet attractively styled hand-made seat, of formidable construction, the Staxton is built to last and designed to remain securely positioned in the location of your choice – thanks to extended legs that are concreted into the ground. The Staxton is particularly suitable for parks, woodlands, highways and public sites where high durability and low maintenance are an important consideration.

Standard seat lengths: 5ft (1.50m.), 6ft (1.80m.).

## *The Driffield picnic suite*

Durability is also a crucial characteristic for a picnic suite, as it must withstand not only the rigours of the weather but also the attentions of boisterous youngsters. The Driffield picnic suite fulfils this requirement perfectly.

A heavy-duty suite, sturdily constructed from durable hardwood or pressure-treated softwood, the Driffield is ideal for use in public areas, where high strength is vital. All cross-members are securely fixed, then reinforced with galvanised steel bolts for extra security.

All units are supplied fully assembled, unless otherwise requested. A parasol hole is optional, and the suite is also available with an extended top for convenient disabled access. As with most of Woodcraft UK's furniture, the Driffield can be effectively secured to either hard or soft ground, using stainless steel brackets, supplied on request.

Standard seat lengths: 5ft (1.50m.), 6ft (1.80m.)

Table top width 28in. (710 mm.)

Height  
33in.  
(840 mm.)

Depth 53in. (1350 mm.)

59in. (1500 mm.)

71in. (1800 mm.)

The Scarborough

## The Scarborough

Originating initially as a one-off bespoke commission, the Scarborough bench proved so successful that it was subsequently developed as one of Woodcraft UK's standard ranges. The Scarborough's sturdy construction and attractive appearance has proved to have an extensive appeal, and it is now firmly established as one of Woodcraft UK's most popular designs.

Standard seat lengths: 4ft (1.20m.), 5ft (1.50m.), 6ft (1.80m.)

### The Scarborough

## The Bedale

The lightest bench in Woodcraft UK's range, the Bedale bench is easy to move and re-locate, yet it still retains the combination of strength, durability and elegance that are the hallmarks of Woodcraft UK's creations. Like all of Woodcraft UK's products, the Bedale is hand-crafted to the very highest standards, using traditional construction methods, and is ideal for the domestic location.

Standard seat lengths: 4ft (1.20m.), 5ft (1.50m.)

### The Bedale

# The Mendip

*All time classic, heavy duty and durable.*

The Mendip bench is one of Woodcraft UK's most impressive creations, possessing those superior qualities of appearance, durability and weather resistance for which the company's products are renowned, and presenting these in a form that blends harmoniously with the outdoor environment.

Sturdy in construction and stylish in design, the Mendip bench will bring a new dimension of appeal to private garden or public area, providing a welcome resting place for generations of visitors.

Standard seat lengths: 4ft (1.20m.), 5ft (1.50m.), 6ft (1.80m), 8ft (2.40m.) – this latter version featuring a centre leg for maximum solidity and stability.

# *The Lutyens*

The Lutyens Garden Bench was one of the most admired designs of Sir Edward Lutyens, whose boundless creativity and imagination produced masterpieces in fields as diverse as architecture and furniture design. Woodcraft UK's re-creation of this magnificent bench remains true to Lutyen's original design, with its unusual frame, beautifully ordered slats on the back, fabulously carved back-rest and autograph armrests.

A truly distinguished addition to any garden, Woodcraft UK's superb hand-built Lutyens bench serves as a fitting tribute to an iconic figure whose creative genius conjured into being the miniature delights of Queen Mary's Dolls' House - today preserved in Windsor Castle - and the imposing magnificence of The Cenotaph in Whitehall. Standard seat lengths: 6ft 3in. (1.90m.) & 9ft 2in.( 2.80m.).

## *The Wykeham*

### **Wykeham Litter Bin**

The Wykeham Litter Bin can be produced precisely to suit your design requirements and match your specifications, and will help to preserve the appearance and hygiene of any public area by serving as an effective and capacious repository for litter. The Wykeham can be supplied in a variety of configurations - with single, double or multiple bays – and is also available with galvanised interior bins or basket liners. The sloping top prevents the accumulation of water, thus minimising rainfall damage, and the option of lockable doors is available to deter vandalism. An open-top version of the Wykeham is available, and both versions can be installed for easy mobility or securely fixed into position with ground anchors.

### **Wykeham Bench**

Simplicity and solidity are the key characteristics of Woodcraft UK's Wykeham bench – characteristics that make it ideal for public areas ranging from parks and woodlands to countryside trails and roadside verges. Constructed from best quality pressure-treated timber, the Wykeham is designed for durability, and will remain serviceable despite high usage and the rigours of the weather.

Supplied as standard with extended legs for in-ground fixing.

Standard seat lengths: 5ft (1.50m.), 6ft (1.80m.)

*Standard dining table*

*The Waveform dining table with the Waveform chair and bench*

# *Garden tables*

*Durable, long lasting - all weather hardwood tables.*

## **Standard dining table**

Woodcraft UK offers a choice of standard dining tables that provide the perfect platform for an impromptu picnic or a more elaborate al-fresco meal. Attractive and practical, these tables feature a slatted design that prevents water retention, minimising the effects of exposure to the elements and preserving the appearance of the timber. Woodcraft's standard tables can be produced in a variety of lengths, widths and heights, and can feature a parasol hole if required.

## **The Waveform dining table**

Elegant, distinctive and sturdy in its construction, the Waveform table is the perfect companion for Woodcraft's unique Waveform bench, and serves as an excellent dining facility for domestic garden or public park.

The Waveform table comes in two standard lengths – 6ft (1.80m.) and 7ft 2in ( 2.20m). – but other variations can be specially produced to suit individual specifications. A parasol hole can be added if required, at no extra cost, enabling you to make full use of the Waveform table's integral parasol base.

*The Wetherby dining table pictured with the York chairs*

### **The Wetherby dining table**

The scale may be greater but the high standard of quality and craftsmanship remains consistent, and the Wetherby dining table epitomises Woodcraft UK's expertise in creating superior outdoor furniture.

The oval design gives the Wetherby a distinctive elegance, and the handsome lines of this superb table are complemented by that substantial construction for which Woodcraft UK is celebrated. Standard width: 3ft 6in (1.070m), standard length: 71in (1.80m), 94in (2.40m).

*The Malton coffee table*

### **The Malton coffee table**

Sometimes small is not simply beautiful, it is also more stylish and practical. This is certainly the case with the Malton coffee table, a classic Woodcraft creation that combines compact convenience and understated elegance, making it an ideal addition to your patio, conservatory or lounge. Standard length: 36in (900mm), standard width: 20in (510mm), standard height: 20in (510mm).

## *Cabins & Shelters*

Designed to blend unobtrusively into a rural setting, Woodcraft UK's cabins and shelters combine attractive appearance and practical functionality, making them ideal for a variety of roles, from cosy haven in park or garden to a picturesque but effective bus shelter. Durable and solid in construction, these structures are roofed in various materials including felting and shingles to keep the weather at bay. They are available with panelled, trellised or open walls, or with windows in safety glass or unbreakable polycarbonate.

# Gazebos

The appeal of the gazebo has never waned since its introduction in Victorian times, and the popularity of this attractive form of garden feature continues to increase to this day. Woodcraft UK has the capability to design and create attractive gazebos to suit every taste and every size of garden, and is always happy to advise on the structure most suitable for the intended setting.

# Pergolas

Colourful, picturesque, romantic, enchanting... All these elements are embodied in the pergola; a walkway of greenery and blossom through which you can wander at your leisure; a tranquil arcade along which you can stroll unhurriedly and savour the scented tranquillity of a summer's day. A pergola gives an additional dimension to the garden, and Woodcraft UK has the skill and experience to create the perfect pergola for any setting; a framework that you and Nature can then develop into an archway of floral beauty.

## *Hardwood Planters*

Woodcraft UK offers a standard range of free-standing planters suitable for enhancing private homes or public buildings, and can also manufacture a wide range of variations on this traditional design. These include sturdy roadside planters which provide an attractive delineation between thoroughfare and pavement and come complete with reflective strips which conform with current safety legislation. In addition to the traditional free-standing design Woodcraft UK can create unique planters for installation in specific settings or incorporation into existing structures.

# Bollards

*Any size, any shape.*

Woodcraft UK offers an extensive range of bollards in a wide variety of timbers and a choice of attractive yet practical designs. All are built to withstand all weather conditions over an extended period, and can incorporate all types of reflectives to ensure maximum visibility.

Ideal for purposes as diverse as parking control and ram-raid deterrence, Woodcraft UK's bollards combine strength and style, and so provide an attractive yet effective option in any situation requiring the deployment of a distinctive marker or sturdy barrier.

Woodcraft UK can produce wooden bollards exactly to your requirements; in extremely durable hardwood or pressure-treated softwood, to any size, shape or specification. This can include reflective bands or panels as well as inserts and plaques.

## *Style options*

**Flat Top**

**Chamfer**

**4 Way Weather**

**Point**

**Bevel**

**Oval**

# *Signage to guide & inform*

Woodcraft UK offers a comprehensive range of signage options that are both effective and attractive, making them ideal for public sites as diverse as woodland parks and hospitals.

## **Fingerposts**

Clear and precise directions eliminate confusion and uncertainty, and Woodcraft UK provides these perfectly. Available with single or multiple fingers, Woodcraft UK's fingerposts feature engraved lettering, in-filled with the colour of your choice, if required, and serve as an attractive and durable guide in any setting.

## **Signs - Timber or Steel**

Woodcraft UK has a long experience in creating outdoor signs to suit every type of situation, from playground to residential home, floral garden to private residence. Standard or bespoke designs are available in either durable hardwood or steel, powder-coated or painted in a colour of your choice.

# Noticeboards

Posters and written notices still have an important role to play, despite the advent of hi-tech communication systems, and Woodcraft UK's wooden or steel notice and display boards can ensure that their message comes across clearly and remains undamaged by the elements. The company's range of parish noticeboards and church signs comprise single, double and triple bay boards, craftsman-built from top quality hardwood and fronted by toughened safety glass or unbreakable polycarbonate.

Woodcraft UK's steel or timber noticeboards are available with a choice of pinboard or magnetic-strip backing, and each bay has the capacity to display four A4 sheets. To ensure that the contents remain in good condition, each bay is weather-sealed on three sides and vented at the bottom. Doors can be lockable or fitted with non-locking handles, and an optional header board can be supplied for an appropriate inscription.

Post and wall fittings are available as required, and although Woodcraft UK produces its noticeboards to a standard format it also offers a bespoke service to cater for all customer needs – in terms of dimension, design and materials.

# Engraving

*Embellish your outdoor furniture with a personalised message or mark of remembrance.*

In addition to producing and engraving plaques in a variety of durable materials, Woodcraft UK also has the capability to engrave commemorative inscriptions, family crests or ornamental embellishments directly into the timber of its products, and so to add the perfect finishing touch to your chosen item of outdoor furniture.

# Plaques

*Supplied and fitted to your requirements.*

An attractive item of outdoor furniture is an ideal feature with which to mark a special event or outstanding occasion, and Woodcraft UK can provide a permanent reminder of good times enjoyed by producing attractive commemorative and presentational plaques and inscriptions in a variety of durable materials including timber, metals and laminates.

# *Alternative shaped top rails*

From the chair or armchair to the longest bench, Woodcraft UK can offer a choice of alternative shaped top rails for the seating you have selected. This choice of top rail design allows scope for your personal aesthetic taste, and the deeper rails can accommodate a larger plaque or inscription, should this be required.

Should you wish to provide your own plaque for incorporation into your chosen bench or chair, Woodcraft UK will be pleased to fit this free of charge.

## *Top rail options*

**Rail option A)** *Extra deep rail (takes upto 4 lines of inscription)*

**Rail option B)** *Curved rail (takes upto 3 lines of inscription)*

**Rail option C)** *Raised rail (takes upto 4 lines of inscription)*

# Fixing & Security

*Stainless steel – for durability, security and peace of mind.*

Woodcraft UK supplies fixing brackets suitable for setting its outdoor furniture securely in either hard or soft ground locations. These fittings are in stainless steel, for extra strength and durability, and come in pairs - complete with all necessary fixings (anchor bolts, screws etc). A choice of standard screws or non-return security screws is supplied as standard.

**Soft ground fixing** - e.g. grass / soil / tarmac.

**Hard ground fixing** - e.g. concrete / paving stones & blocks set in concrete.

Other styles of fixing brackets can be manufactured on request.

All brackets are supplied with security screws, brackets for hard ground fixing come with expanding anchor bolts.

# The Woodcraft Guarantee

*Only the best quality ethically sourced materials go into making your outdoor furniture. Hand built to the highest standards by our craftsmen here in Beverley, East Yorkshire.*

***Our guarantee assures quality, strength and durability.***

Every order, regardless of size, receives the same high standard of individual attention, and Woodcraft UK has such confidence in the quality of its outdoor furniture that it offers a full replacement guarantee. Given the skill and care that goes into the creation of every product it is unlikely that any item should fail to meet the level of quality expected, but should such an unlikely event occur we will replace it without charge or question if you are not completely satisfied.

## ***Environmental Statement***

Woodcraft UK will seek to reduce or eliminate waste through efficient utilisation of raw materials, fuel and energy and by promoting re-use and recycling where appropriate, Woodcraft UK will ensure awareness amongst all employees of the importance of environmental issues.

## ***Timber Policy***

Woodcraft UK uses hardwoods, softwoods and panel materials sourced from around the world - including the UK. The company is aware of the widespread criticism of developments in forestry and forest management in many countries, but recognises that the situation varies from country to country, and keeps up to date with developments. Until an internationally recognised definition of sustainability has been agreed, Woodcraft UK will refer to well-managed forests only where supporting evidence is available.

**Woodcraft UK will endeavour to comply with any environmental timber standards required by its customers, including investigating the accreditation of an FSC (Forest Stewardship Council) Group environmental certification policy.**

## ***Testimonials***

" For nearly two decades Woodcraft UK have been supplying Burnby Hall Gardens with garden furniture including seats, pergolas, a gazebos and shelters. Their build quality is second to none.

Visitors to the garden often ask where the seats are from. I have no hesitation in telling them Woodcraft UK Beverley"

**- Ian Murphy Burnby Hall Gardens.**

" All I can say is WOW!!!!..... we should have been buying our benches from you ages ago. The quality of the build and the timber used far far exceeds that of what we had been getting from previous suppliers over the past 3-4 years.....and I am not just saying that as it is a nice thing to do., really mean it. They have just arrived in just the same condition as they no doubt left your workshop.

So many thanks, and I'll be letting the RBGE gang know the quality of the merchandise they would get putting their orders to you."

**- Colin Belton, Royal Botanic Gardens, Edinburgh.**

# Delivery and installation service

## SPECIAL OFFERS

Visit our website to view our extensive range of bespoke outdoor furniture as well as special offers on end of line products.

Woodcraft UK regularly undertakes delivery and installation of its products throughout Yorkshire, and is always pleased to quote for these services for any location on the UK mainland and in Northern Ireland.

Before despatch each item has to pass Woodcraft UK's extensive Quality Control systems to ensure that it commences its journey in pristine condition. It is advised that customers should remove all

packaging and inspect the good carefully before accepting delivery.

In the case of items requiring installation, Woodcraft UK will arrange for such installation to be undertaken on-site by expert operators familiar with the technical requirements of the task, thus ensuring that the company's high standards and emphasis on customer satisfaction are maintained even at a distance.
